Subject: [External Sender] Ilgadi new location

I would like to voice my opinion with regards to Ilgadi requesting a permit near Granby. My husband and I have the auto shop next to the proposed building and we have no issues related to them opening a shop there. Marijuana shops are required to follow more steps than any other form of substances, i.e. cigarettes or liquor. When you walk into a shop you must show your ID multiple times prior to purchasing items. Also all items that I have purchased at Ilgadi have a bar code on them so they can trace it to who purchased the item – can a can of beer do that when an under-aged person is in possession of it?

I feel that it is the same with any business – if you don't want to use the products that are being sold in that business then don't go to that business (example- you don't go to a Chinese restaurant and order Mexican food – if you don't want Marijuana don't go there).

In respect to the Town of Granby throwing their weight around saying that it shouldn't be allowed – here is my view on that. We are also not located within the city limits of Granby therefore we do not get any sort of services from Granby – sidewalks, street lights, if we want water or sanitation our fees are doubled to get these services. So with that being said I feel the Town of Granby should have NO say in what happens on the property.

Sincerely,
Kris Makowski
