Patient Quotes

“This program is extremely valuable. I have already recommended the program to friends who have missed work due to illnesses.”

“Fantastic! Amazing! I thought I had Lyme disease and had been misdiagnosed previously. I was seen here and the doctor found it immediately. I was astounded how easy the program was to get in. The nurses at Public Health were passionate about the program. It was so easy. I was skeptical and now I will go anytime. They put me completely at ease and there wasn't any paper chase.
